The Industry's First AI Cyber Risk Management Training Program

AI Governance Risk Management Playbook

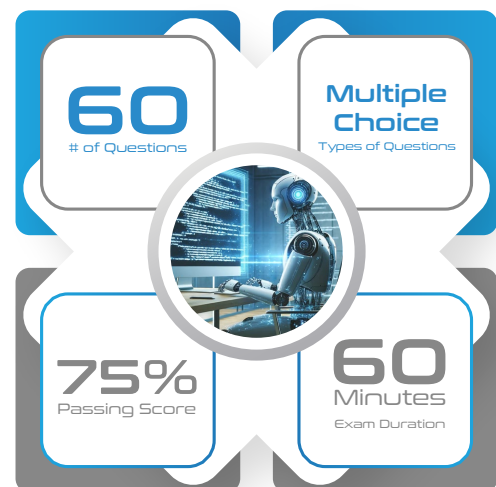

Gen AI Playbook

What's in it for you?

- ✦ Review valued AI framework resources
 - NIST AI RMF
 - ISO 42001
 - New York
 - Colorado
 - Texas
 - Utah
- ✦ Understand EU AI Act requirements and risk classifications
- ✦ Step through a sample AI risk management policy
- ✦ Identify AI cyber defense controls
- ✦ Determine key phases for an enterprise AI risk assessment

AI Exam Specifications

Digital Badge

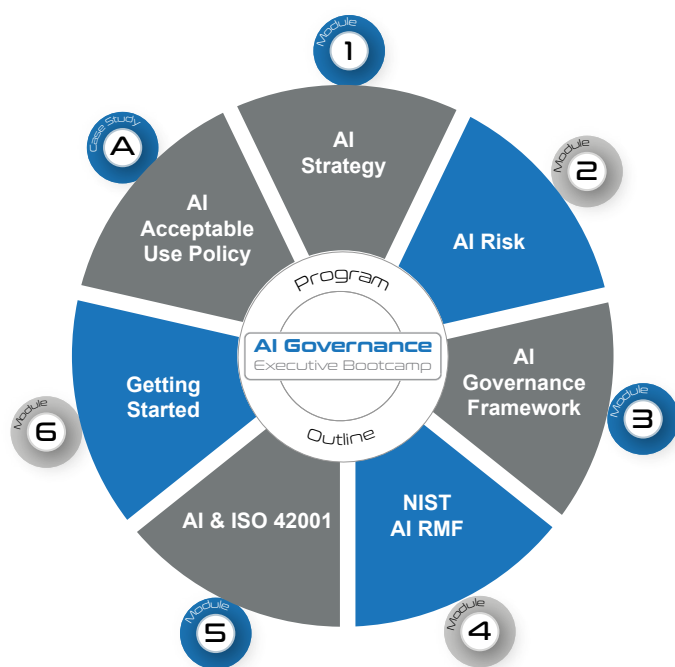

ecfirst also offers a Digital Badge with your certification. There is no fee for this service and acceptance is totally up to you.

Summary

- Practitioner-focused AI governance program for business, compliance, risk, and technology leaders.
- Covers AI governance frameworks, ethics, risk management, and regulatory obligations including National Institute of Standards and Technology AI RMF, International Organization for Standardization ISO/IEC 42001, and the European Union AI Act.
- Includes practical governance implementation, policy development, and knowledge-check assessments throughout the program.

Program Outline

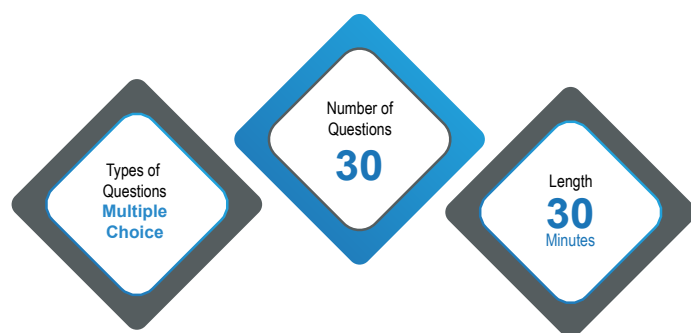

Learning Objectives

- Align AI strategy, governance, and investment planning with enterprise business objectives
- Apply AI governance frameworks including National Institute of Standards and Technology AI RMF and International Organization for Standardization ISO/IEC 42001
- Classify and manage AI risks under the European Union AI Act and emerging regulations
- Implement ethical AI principles, governance controls, and responsible AI deployment practices
- Develop AI governance artifacts including AI policies, governance committees, and executive reporting mechanisms

Intended Audience

- C-Suite executives, board members, and AI governance leaders responsible for enterprise AI oversight and strategy.
- Risk, compliance, legal, security, and privacy professionals managing AI risk, governance, and regulatory obligations.
- Technology, data, operations, HR, finance, and public sector leaders overseeing AI development, deployment, and high-risk AI use cases.

Exam Specifications

Module Exam Weight

Module 2	AI Risk	20%
Module 3	AI Governance Framework	20%
Module 4	NIST AI RMF	25%
Module 5	AI & ISO 42001	15%
Module 6	Getting Started	5%
Case Study	AI Acceptable Use Policy	5%

“

Delivers the latest insights,
including AI NIST RMF 100-1.

”

“

Excellent AI content and
resources.

”

“

Excellent training &
highly effective.

”

“

Fantastic
training with
actionable items
and resources.

”

“

Honest,
novel
insights on
AI disruption.

”

“

Highly effective training with a
strong overview of organizational
needs and AI risk management
lifecycle.

”

“

Well-organized content.
