HITRUST Certification Readiness

HITRUST ecfirst

“

HITRUST is a dynamic framework. It's a living, breathing organism, and evidence of that is in the dozens of authoritative sources utilized. Frequent updates to the CSF demonstrate that the HITRUST thought leadership is not just industry-centric, but industry-neutral. It's not just America-centric, but global. With the e1, i1, and traditional r2 HITRUST certification options, organizations now have a credible, evidence rich framework to align their cyber and compliance strategy with their business drivers.
